

Major Modification Granted for Class III North Memphis Landfill Facility

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has issued a solid waste disposal facility permit to North Memphis Landfill, Inc. The facility, identified as DML790000109, is located in Shelby County at 382 Klinke Road, Memphis, TN 38127.

This permit authorizes construction, operation, closure and post-closure care of the existing disposal class III disposal facility for the disposal of farming wastes, landscaping and land clearing wastes, construction/demolition wastes, shredded automobile tires, and/or certain wastes having similar characteristics and approved in writing by TDEC. This major modification consolidates two existing landfill cells resulting in an increase in airspace through a vertical expansion.

DSWM made the draft of this permit available for review during a 45-day public comment period which ended July 5, 2016. No comments were received during the comment period.

The final permit is posted online. Visit <http://go.usa.gov/cuP8F> to access the facility information in the Dataviewer. Three locations also have paper copies available for review:
